## RESPIRATORY PROTECTION

---

**3M**

### **3M 8210 N95**

Designed to help provide quality, reliable worker protection against certain non-oil based particles. Its lightweight construction promotes greater worker acceptance and comfort and increased wear time. Workplace applications include grinding, sanding, sweeping, bagging and other dusty operations. This respirator features 3M's Advanced Electret Media (AEM) and adjustable noseclip to help provide a custom fit and secure seal.

### **3M 8212 N95**

Provides minimum filter efficiency of 95% against non-oil based particles. Workplace applications include welding, brazing, soldering, torch cutting, and metal pouring, as well as grinding, sanding, sweeping, bagging and other dusty/hot operations. It features the 3M Cool Flow exhalation valve and cake-resistant filter media.

### **3M 8233 N100**

This respirator is well suited for those who want NIOSH's highest rated filtration efficiency in a maintenance free respirator. It provides a minimum filter efficiency of 99.97% against non-oil based particles. This respirator is an excellent choice for lead abatement, pharmaceutical manufacturing, welding, metal pouring and work involving substance specific particles. It features the 3M Cool Flow exhalation valve, comfortable face seal and adjustable noseclip.

### **3M 7702**

Soft, lightweight silicone formulation and advanced face seal shape provide improved wearer comfort and a tighter, more secure fit on the face.

**7001 K-100** - Organic Vapor

**7007 K-100** - Acid Gases

### **3M 3200**

Ideal for spray painting, chemical spraying and coating, fumigation, degreasing, cleaning and maintenance.

Cartridges for **3200**

**3301 K-100** - Organic Vapor

**3311 K-100** - Organic Vapor w/ Prefilter

**3303 K-100** - Organic Vapor / Acid Gases

**7254** - Ammonia and Methytamine

**7255** - Dusts, Mists, Fumes

### **3M 7200 / 3M 7300**

Offers the user comfort and convenience coupled with the cost savings of a reusable respirator. The swept back design of the cartridges improves balance and visibility. Remarkably comfortable, soft, lightweight and easy-to-adjust head straps. Can be easily disassembled and cleaned. NIOSH approved.

Cartridges for **7200 / 7300**

**7251** - Organic Vapor

**7253** - Acid Gases

### **3M 6200 ( Thermoplastic ) / 3M 7502 ( Silicone )**

Advanced soft silicone material and a unique adjustment design help to reduce tension and pressure points on the face for unsurpassed comfort. Unique head harness gives the user the option of wearing the respirator in either traditional or drop-down mode. 3M™ Cool-Flow™ Exhalation Valve greatly reduces heat and moisture buildup. NIOSH approved.

Cartridges for **6200 / 7502**:

**6001** - Organic Vapor

**6002** - Acid Gases

**6003** - Organic Vapor / Acid Gases

**6004** - Ammonia Methylamine

**6006** - Multi-Gas Vapor

**6009** - Mercury Vapor / Chlorine

## RESPIRATORY PROTECTION

---

### **3M 6800**

Reusable Full Facepiece offers users comfort and convenience - coupled with cost savings. The facepiece is made of a thermoplastic elastomer, making it remarkably comfortable, soft and lightweight.

### **3M 7800S**

Full Face respirator is a durable elastomeric facepiece designed for a wide range of applications. The full facepiece is made of silicone and features a double-flap face seal and six easy-adjusting straps. The facepiece is soft and pliable with a scratch-resistant lens which provides the wearer an unobstructed view. The extra-large inhalation and exhalation valves help make breathing easier. The 7800S series is designed for versatility, comfort and long life.

\* Cartridges: Organic Vapor, Acid Gases, Ammonia and Methytamine, Dusts, Mists, Fumes

**MOLDEX**

### **MOLDEX 2200 N95**

2200 N95 features the collapse-resistant Dura-Mesh shell with a molded nose bridge that seals easily without a metal noseband.

### **MOLDEX 2400 N95**

2400 N95 provides protection from most welding fumes. Added sorbent helps filter out nuisance levels (less than OSHA PEL) of ozone and organic vapors. An exhalation valve reduces hot air build-up, keeping workers cooler and more comfortable. Collapse-resistant DuraMesh shell has a comfortable Softspun lining and lasts longer, so workers use fewer masks. Flame retardants are added to help decrease flammability of the shell. The soft foam nose flange of the contoured, molded nose bridge seals

easily and comfortably without a metal noseband. Certified under NIOSH 42 CFR 84 to have filter efficiency level of 95% or greater against particulate aerosols free of oil.

### **MOLDEX 2300 N95**

2300 N95 adds an exhalation valve that reduces hot air buildup. Certified under NIOSH 42 CFR 84 to have a filter efficiency level of 95% or greater against particulate aerosols free of oil.

### **SPONGE DUST MASK**

PE frame, soft sponge, washable and reusable, lightweight and comfortable. Attached 2pcs of high efficient filters to absorb the odor vapors. Suited to odor, dust particle areas by long time use such as trash areas, motorcycle riders, cement, medical, disintegration, dust, wood processing, agriculture, farm, factory, cleaning, etc. workshops.

**F-1** ( with super filter )

**F-14** ( with carbon filter )

**1800-1** – replacement filter

**1900-1** – carbon replacement filter

**North 5500**

Made from soft, hypoallergenic elastomer to provide comfort, fit, and ease of maintenance. The facepiece conforms gently to the worker's face. The cradle suspension system adds comfort and provides proper positioning of the respirator, for an even seal without creating sensitive pressure points. NIOSH approved when used with North cartridges and/or filters.

### North 7700

Facepiece is made of soft, hypoallergenic silicone which conforms to the worker's face. The cradle suspension system also adds to the comfort of this respirator. The facepiece is non-slip and creates a tight seal. The low-profile design gives workers a wide field of vision and room for protective eyewear. NIOSH approved when used with North cartridges and/or filters.

Cartridges for **5500** and **7700**:

**N-7500-3** - Organic Vapor  
and Acid Gases

**N-7500-1** - For Paint and Pesticides

Dual filter mask, with secure Click-fit system. Wide field of vision ensuring excellent lateral and downwards visibility. Polycarbonate visor, Facepiece seal on U-shaped faceblank makes it lightweight and resistant to wear and ensuring good facial compatibility (auto fit), Weight: 570 grams, Five-strap head harness, Quick-release adjusting buckles, Side lobes for wearing prescription spectacles inside mask, Built-in plastic speech diaphragm for better speech transmission, SILICONE exhalation valve

\* Cartridges: Ammonia, Organic Vapor and Acid Gases

### Sperian Chin-type

Wide field of vision ensuring excellent lateral and downwards visibility, Polymethylmethacrylate (PMMA) visor, Facepiece seal on faceblank, making the mask lightweight and resistant to wear, Good facial compatibility, One size with a high face, Adaptability coefficient, Five-strap head harness, Quick-release adjusting buckles, Cotton neck strap, Side lobes for wearing prescription spectacles inside mask, Silicone exhalation valve, RD40 x 1/7" connection to mask conforming to the EN 148-1 standard

\* Canisters: Ammonia, Organic Vapor and Acid Gases
